

Position Description: Clinical Psychologist

**Location: 1a Badger Creek Rd, Healesville
Reports to: Oonah Chief Executive Officer**

Oonah Health & Community Services Aboriginal Corporation

The Clinical Psychologist will work closely with the Mental Health Workers, Oonah staff and other service providers to implement a culturally appropriate, integrated and locally based model for mental health services. The focus will be on supporting Aboriginal people with mental health issues to receive appropriate services and support to assist in their recovery.

The Clinical Psychologist will be responsible to the Oonah CEO and will work as part of the Mental Health and Alcohol and other Drugs team structure located at the Healesville Belonging Place. This position is 2 days a week.

BACKGROUND

The Healesville region of the Yarra Ranges is a stronghold of Aboriginal history and culture, which pervades its beautiful hills, lush valleys and bushland.

However, the recent history of Aboriginal settlement in the area is not so positive. The fate of Coranderrk Reserve, and the history of government treatment of its people, left a legacy that is still felt today.

The Indigenous population of Healesville and the surrounding area is about 2,500 people, many of whom are from distinct Indigenous language and cultural population groups from across Australia. The number is expected to increase to over 5,000 by 2021 (Profile of Indigenous Representation in Eastern Metro Melbourne, Department of Justice, 2009). Such a broad representation of different Aboriginal nationalities, aided by the legacy of Coranderrk, has created a great diversity among the local Indigenous population.

Oonah and The Belonging Place

Oonah Aboriginal Health & Community Services Aboriginal Corporation (previously known as Healesville Indigenous Community Services Association) was established in 2009, in response to a long-term unmet need for a clearly identified Aboriginal Belonging/Gathering Place in the outer eastern Indigenous community. Oonah is committed to providing a mix of direct and partnership-based service delivery, particularly for services that are more appropriately delivered from an Aboriginal controlled organisation and space.
